Subject: Carpeting the Riverside Theatres Foyer

Dear Maureen and Matthew,

It is with pleasure that I commend the efforts of your carpet layers on the excellence of their work in laying the carpet in the Riverside Theatres Foyer over this past week – 17th to 21st of June. As you are aware, this project involved the laying of 450 square metres of carpet in a complex high traffic area within a tight time frame. It was essential that the tradesmen be conscious of the Theatre's patrons and clients who at the time included the extensive team from the television show "Australia's Got Talent".

In particular the Theatres' Director Robert Love and I were impressed by the way flooring specialist Steve McGuinness worked with the staff to minimise affect of the works on patrons and to ensure continuity of business to the Box Office. Capably assisted by Jeff Stevenson and Jakson Reynolds, Steve rectified complex issues with the flooring sub-strata which have not been properly addressed since the building's construction in 1988. He also carefully aligned the carpet to ensure the integrity of the pattern throughout the Foyer.

Well done and thank you.

Regards,

Noel Benham,
Project Manager and Senior Theatre Operator
Riverside Theatres, Parramatta

provide this unsolicited reference for Jakson Reynolds who I recently observed in the work environment as he assisted in laying carpet throughout the Foyer of the Riverside Theatres at Parramatta. By way of background,
